Dear Mr. Veenticinque:

Re: Reclamation Surety, Moab Salt, Incorporated, Cane Creek Mine, M/019/005,
Grand County, Utah

I have enclosed, for your evaluation, information concerning the land disturbance and associated reclamation estimate for the Cane Creek Mine. I have provided a land ownership map indicating federal land currently impacted by the operator (see highlighted portion). I have also provided a reclamation estimate, I copied from the current Mining and Reclamation Plan.

Before we are able to approve any amount or form of reclamation surety associated with federal properties we are obligated to obtain consent from the federal land management agency. The operator has advised us that he will seek Board approval for a self bond. According to the information I have, the BLM does not accept self bonds.

Please advise me as soon as it is convenient for you, as to how your agency wants to approach the reclamation surety question for the federal properties at this site.

Sincerely,

Holland Shepherd
Reclamation Specialist/Permit Lead
